

The minutes of the Regular Public Meeting of the Township Council of the Township of Saddle Brook held on September 1, 2022 at 7:00 PM at the Municipal Building, 93 Market Street, Saddle Brook, NJ.

The Township Clerk called the meeting to order at 7:00 pm.

The Township Clerk asks for a motion to select an acting Council President in the absence of Council President Mazzer.

Motion: Councilman Cimiluca

Second: Councilwoman D'Arminio

Councilman Cimiluca – yes
Councilman Gierrek – yes
Councilman Accomando – absent
Councilwoman D'Arminio – yes
Council President Mazzer – absent

The Township Clerk called the roll:

Councilman Cimiluca – present
Councilman Gierrek – present
Councilman Accomando – absent
Councilwoman D'Arminio – present
Council President Mazzer – absent

Mayor White – present
Robert Klein Township Engineer - present
Anthony Suarez – Township Attorney - present
Mr. Wielkotz – Township Auditor - present

Acting Council President Gierrek asked everyone to please rise for the salute to the flag and remain standing for a moment of silence for all the victims of 9/11/01.

Acting Council President Gierrek announced that adequate notice of this meeting has been sent to all Council members by police messenger and to all legal newspapers in accordance with the provisions of the Open Public Meetings Act, Chapter 231, P.L. 1975.

The Township Clerk announced that the public is hereby advised that any statements made during the meeting of the Township Council of the Township of Saddle Brook may not be privileged or protected and that persons or entities who take issue with such comments or are offended by same, may, and have in the past, sought legal redress through the courts.

Any member of the public who addresses the Council speaks for themselves and not for the Council.

Acting Council President Gierrek asked for a motion to open the meeting to the public.

Motion: Councilwoman D'Arminio

Second: Councilman Cimiluca

Roll call:

Councilman Cimiluca – yes

Councilman Gierrek – yes

Councilman Accomando – absent

Councilwoman D'Arminio – yes

Council President Mazzer – absent

PRESENTATIONS

Thomas Van Winkle of 128 Lincoln Avenue comes forward to give a Mayor's Youth Group update. He mentions that they are always looking for new members and they will need help with the holidays coming up and they will be meeting again soon.

Acting Council President Gierrek asked for a motion to close the meeting to the public.

Motion: Councilwoman D'Arminio

Second: Councilman Cimiluca

Roll call:

Councilman Cimiluca – yes

Councilman Gierrek – yes

Councilman Accomando – absent

Councilwoman D'Arminio – yes

Council President Mazzer – absent

COMMENTS

Mayor White gives a COVID update. As of August 2, 2022 in New Jersey there were 1038 hospitalizations with confirmed or suspected COVID. The daily numbers of COVID hospital patients totaled 1033 on August 17th and fluctuated between 968 and 990 from August 19th to the 25th. The state average of 2306 new cases per day from August 19th to the 25th is down from the summer's high mark of 3767 daily cases, 72 people died from COVID in New Jersey and 3200 nationwide during that span. The transmission rate has improved very nicely to 0.87. A rate lower than 1 indicates that each existing infection causes less than one new infection, it's a sign that the virus's spread is slowing down. The true case totals are more difficult to calculate now because of prevalence of at home tests that don't typically get recorded in COVID statistics. With recent declines the CDC officials have dialed back mask guidance in New Jersey the agency guidance doesn't trigger any mask mandates for the state at this time. Public schools won't require students heading back to school to get vaccinated against COVID-19. Bergen County went from a medium to low community levels. Other COVID news that may impact some residents the Federal Government will stop covering the cost for COVID vaccines, treatments and tests as early as this fall. The action will likely bring out of pocket costs to people without health insurance but Medicaid and most private health insurance plans will need to continue covering certain costs for that time period. The FDA plans to authorize updated versions of Pfizer and Moderna COVID boosters around Labor Day. The new shots target Omicron sub variants which account now for

nearly 90% of all new COVID cases in the United States. Around sixteen million working age Americans age 18 to 65 have what they call long COVID including two to four million who are out of work because of long COVID. Our budget basically the municipal tax rate is 0.756 cents per hundred dollars of assessed value. The tax increase on the municipal side is ninety seven dollars on the average house assessed at four hundred and seven thousand. The other portion of the tax is County, Board of Education and Library. Bills are being printed and should be received in the mail late next week September 5th through the 9th or early the following week September 12th to the 16th. We didn't want to do an estimated tax as our auditor had said we should do but we're okay we have enough money and they're out a little bit later and we did notify all the residents the best we could and told them they would be out late. We are the tenth lowest of 70 Bergen County municipalities as far as our taxes go. Our road paving program Garden and Kenwood Court are done just punch list items have to be completed doing the cement work preparation work on Schepis Avenue right now. We're also doing Graham, Skillman, Spindler and Spindler is part of the Phase 1 resurfacing program so they should be doing those streets the concrete work soon. Mr. Klein is going to give an update on dates. Phase 2 of this year's program is North and South Boulevard and Adriana Street. Mayhill Street from Market to the railroad tracks is being done as part of New Jersey Transit Grant and that they're doing the concrete work right now. New building construction update I'm going to let Councilwoman D'Arminio speak about that I want to thank her for all her hard work, she's doing a fantastic job. Speed humps should be done this fall in October one of the contractors that's doing the paving is going to probably do that work. Wilson, Fairlawn Parkway and Lanza I think are the ones that are slated to get the speed humps. We're also going to be televising storm drains within the next couple of weeks as well. There were quite a few issues with that last heavy rain. Upcoming events the nine eleven ceremony is going to be next Friday September 9th right here 6 pm at Town Hall 93 Market. Our ribbon cutting ceremony for Starbucks Tuesday September 20th 4 pm. We always welcome new businesses that come into town. They're inviting most of the town to come and have a cup of coffee and talk to the new people from the business. This Starbucks people either seem to love it or hate it, a lot of people are worried about traffic but I don't think it's going to be a problem. It went before the Planning Board and it seemed like a good project but we'll see. The town wide garage sale is Saturday and Sunday October 8th and 9th we did it the last couple and it was a big hit. The UNICO street fair is going to be Sunday October 2nd on Market Street from Westminster to Mayhill Street, it starts at ten and ends at four. The Municipal Complex ribbon cutting is going to be pushed back it's going to be sometime in the middle October on a Saturday either the 15th or 22nd. Town Hall is back to regular business hours after this week. I want to wish the students, teachers, administration, support staff and parents a very successful school year.

Councilman Cimiluca – In regard to the speed issues in town we had a number of complaints from residents on Danna Way and the people that were making the complaints were at addresses between the intersection of Louis and Danna and Danna goes around into Saddle River Road. What we did was set up our speed camera and ran the numbers. The first set of numbers didn't turn out there was a glitch in the system that was fixed and then the real numbers came out. I don't know if you can see it on here but it's a graph table and you'll see that in that graph table there are small bars on the top and small bars on the bottom and as you see right in the middle is where most of the vehicles were. It's interesting to note that when you get to the greater of the bars

they're generally between eighteen miles an hour and twenty four miles an hour not the great speeding we may have anticipated in fact 68% of the vehicles going in both directions were between seventeen and twenty six miles an hour. More than two thirds were going slower or just about at the posted speed limit. There were vehicles going greater than fifty miles an hour. Those vehicles represented less than one percent of the vehicles traveling on that roadway. The volume for the week that was tested was almost three thousand vehicles and the mean average was 21.9 miles an hour. The committee will go over these numbers and decide what if any plan is to be done. The numbers are what the numbers are. This is the bar graph for Schepis Avenue and I must say the Schepis Avenue numbers may be skewed because in the week that they did this which was this past week they were doing work on Schepis Avenue. This was done on the west end of Schepis Avenue right around where Oak intersects with Schepis so as you see the main part of these bars are between fifteen miles an hour and twenty three miles an hour. There's a lot more traffic on Schepis we recorded over fifty five hundred vehicles about two thirds of those vehicles were going between fourteen miles an hour and twenty three miles an hour. The mean average at that location is 18.4 miles per hour and there were 57 vehicles that traveled greater than fifty miles an hour that represented .7 percent. We moved it to the other side of Schepis closer to Fairlawn Parkway and we're going to get those calculations but what we are going to do is go back to that location on Schepis the Oak Avenue area to get a better idea. The numbers may have been skewed down because big construction trucks being around it just makes sense that cars aren't going to be traveling as fast as they would otherwise. We're always looking to see if we can alleviate speed conditions where we can do it but instead of saying a bunch of people are complaining about speed on such and such street now we can go back with the data and actually look at it. Now we have data from at least two locations and by the time we come back for the next meeting in October we'll be doing a number of other streets. We have some in mind so if you believe that your street is the source of greater than average speed and again even in a cul-de-sac there's going to be somebody that's traveling at an excessive speed. If you believe that there is a speeding issue on your block please contact Town Hall and we'll be happy to see if we can get some data for your street. It's a slow month welcome everyone back from vacation and all the children, parents, teachers and administrators have a happy and healthy school year.

Councilwoman D'Arminio – I'll report on the building but I've asked Mr. Wielkottz to be here tonight to review what we said when we started and where exactly we are now if you would be kind enough to.

Mr. Wielkottz – Good evening everybody Back three years ago we started this project did a number of projections in terms of debt service and the ultimate cost to the Township and the building which you heard before the ribbon cutting will be next month. The building is on budget there will be no need for any additional appropriations or supplemental appropriations in order to get the building open. A hundred percent of the debt service is now in this year's budget. You heard the Mayor mention the incremental municipal tax increase of about ninety seven dollars this year that increase is solely the responsibility of garbage and trash. If you've been following the meetings earlier in the year the Town went out to bid I believe there was one bidder and this has been going on all through the state. When long term contracts have expired during the COVID period the new contracts are exponentially more expensive because of and again this is

the explanation of the vendors tremendous additional amount of garbage and trash that was picked up especially during the first year and the additional tipping fees that went along with that were all absorbed by the contractors so the contract here in Saddle Brook was 510,000 dollars more in 2022 than it was in 2021 and there is not a thing we can do about it we had to pay for it. The 538,000 dollar municipal tax increase which translates into the ninety seven dollars is the sole responsibility of garbage and trash it has nothing to do with the building. As we've mentioned many times over the last few years we were in a program where we kept building up our surplus to put money away so that when the debt service incrementally hit the budget the increase in debt service appropriation would have zero or very negligible impact on the municipal tax rate and the tax increase and I believe the proof now is in the pudding that the debt service is on a hundred percent. Your 2022 budget tax increase was the sole responsibility of garbage and trash collection and the building's on budget and just about ready to be opened. What we've said collectively over the last few years came out exactly the way we thought it would and we were very lucky because when we sold the debt two years ago we got the lowest interest rate that governments have seen in a hundred years in selling tax exempt obligations. The rates today are two and a half times what they were then. We saved millions of dollars by our timing in terms of purchasing the property, purchasing the building, signing the contract, getting the contractor this is one of the times where it's a huge success story. Everything fell into place and now it will all come to fruition with the opening of the building.

Mayor White – How are we going to be impacted by the lack of Cares Act Money? The last two years we received quite a bit of money.

Mr. Wielkotz – Every budget year is a challenge before the meeting Mr. LoDico gave me some year to date revenue numbers to look at. Some of the revenues are performing better than they did last year we've realized more than fifty percent of what we anticipated in the budget for this year such as the court starting to get back in action. The last few years have not been easy between the Cares Act and the American Rescue Plan the Federal Government gave out a fair amount of money to everybody to help even things out a little bit. It'll be challenging but again we have been in the program where we ended 2020 with over six million in surplus we ended last year with I think 5.7 or 5.8 million dollars in surplus we'll end this year somewhere between five and a half and six million in surplus so we have the ability and what we've done over the last few years is utilize some additional surplus to try to even out and minimize the municipal tax increase and I'm not saying that ninety seven dollars is not an increase it is but it's less than twenty five dollars a quarter and the Town just like everybody else is getting beat up with inflation. We're paying more for gas we're paying more for supplies we're paying more for pretty much everything just like everybody else. Every year is a challenge but again we go through the process Mr. LoDico tries to put through a minimal budget and we do have to make up for that federal money that's come in the last couple of years so it's going to be a challenge but it's not just us it's seventy municipalities in Bergen County it's twenty one counties in New Jersey it's six hundred and some odd school districts we're all in the same boat. Will the government or the state step in now there is some additional state aid that's in the state budget that was approved after you adopted your budget so that money is available for next year so that's something.

Mayor White – Thanks.

Councilwoman D'Arminio – To bring you updated with the building if you drive by you can see the front is being painted. The back and the sides of the building are painted we're working on the front it was delayed because the orange is metal so unfortunately with the hot weather we've had the metal gets hot so you can't paint so that is taking place right now. I'm happy to say that all of the free furniture that we were able to get is in the building and has pretty much done just about every office in the building and it looks nice. It's really nice furniture for being used and I believe it saved us almost a half a million dollars. We do need some file cabinets we do need a few more desks but overall we really saved a lot of money. The basketball court the floor is being laid on Tuesday that should be three days the baskets are up it's coming along nicely. As the Mayor said we're looking to October 15th to the 22nd. I can't confirm the date for the Grand Opening although I'd like to. We're waiting on the master switch for the permanent power. The building is working on temporary power and it is working fine however we do need this switch for the transformer in order to put it on permanent. That switch is supposed to be shipped from Mexico tomorrow and it will take seven to nine days to get here. The electricians that are working on the building are all prepared for it to come in Public Service has to come in so everything is in place but unfortunately with the supply chain situation I'm hoping that it is shipped. We need that in order to get a TCO to have the Grand Opening. I am there every day and if anybody wants to stop please come and take a look I think we all think it's very impressive and as Steve said it was sort of like everything fell into place and I want to thank my team for putting me to oversee the project because I am really enjoying every part of it. We will keep you posted we want to have the meeting the next meeting is October 6th if the switch comes in and I know everything's going you'll start seeing notices all over with the date of the Grand Opening and it will be on a Saturday the 15th or the 22nd so you'll find out well before the next meeting. Any questions email, call me, stop by love for you to see it and we are not over budget we are within our budget and at the end of the project of course we will give you a complete breakdown of it. Children back to school I bet the parents are happy I wish you all a nice Labor Day weekend.

Councilman Gierek – The Flood Committee will be meeting on Tuesday September 27th not Wednesday September 28th as I said previously due to Captain Galbo's retirement dinner. The Flood Committee meets at the Senior Center at 6:30 so that will be on Tuesday September 27th.

ORDINANCES

1. ORDINANCE #1726-22 – FINAL READING

AN ORDINANCE OF THE TOWNSHIP OF SADDLE BROOK, COUNTY OF BERGEN, STATE OF NEW JERSEY AND SUPPLEMENTING CHAPTER 206 OF THE TOWNSHIP CODE REGULATING THE OPERATION OF SPECIFIC CLASSES OF CANNABIS BUSINESSES WITHIN ITS GEOGRAPHICAL BOUNDARIES

The Township Clerk announces that the ordinance which was scheduled for a second reading has been tabled until the October 6th meeting in order for the Planning Board to review it.

Acting Council President Gierrek asked for a motion.

Motion: Councilman Cimiluca

Second: Councilwoman D'Arminio

Roll call:

Councilman Cimiluca - yes

Councilman Gierrek - yes

Councilman Accomando - absent

Councilwoman D'Arminio – yes

Council President Mazzer - absent

The Township Clerk announces the consent agenda and reads the following.

All items listed with an asterisk (*) are considered routine and non-controversial by the Township Council and will be approved by one motion. There will be no separate discussion on these items unless a Council member(s) so requests it, in which case the item(s) will be removed from the Consent Agenda and considered in its normal sequence on the agenda. The one motion signifies adoption of all resolutions, receive and file letters, correspondence, reports and approval of minutes and applications.

Acting Council President Gierrek asked for a motion to approve.

Motion: Councilman Cimiluca

Second: Councilwoman D'Arminio

Roll call:

Councilman Cimiluca - yes

Councilman Gierrek - yes

Councilman Accomando - absent

Councilwoman D'Arminio – yes

Council President Mazzer - absent

Mr. LoDico – That completes the consent agenda.

OLD BUSINESS

Councilman Cimiluca - Through the Chair I want to ask Mr. Klein for everyone to know because they're interested in when their streets and the surrounding streets are being paved do we have a timetable on the various streets?

Mr. Klein – As mentioned earlier Garden and Kenwood have already been paved it's just punch list and restoration work a lot of it happened yesterday. Mayhill and the parking lot are scheduled for the third week in September. They're working on the concrete work on Mayhill currently. Schepis the concrete work should be done this week and then they're going to move onto Skillman and Spindler next week. Those two streets should be relatively quick I'm going to say one to two weeks and move on to Graham Terrace. Graham Terrace is longer has a lot more work to it. Once Graham is done then you're talking about milling and paving it has not been scheduled yet and I would anticipate sometime towards the end of October or early November for those streets. The next contract is then North and South and Adriana Streets a fair amount of concrete work there that's slated to start in about two weeks. I think the milling and paving of those roads are not scheduled yet but I would think in the same time frame late October November period of time.

Acting Council President Gierak – Any other old business?

Mayor White – Through the Chair I want to thank Thomas Van Winkle for taking photos at the Municipal Complex and you can go online and they are posted on the website at saddlebrooknj.us there's a special section you can go to.

Councilman Cimiluca – In going through the new complex I was very surprised and pleased some of the artwork that you see on occasion throughout this building the walls now are bare. The artwork has been framed and will be put up once the building is ready for it and I believe they're all from students from Saddle Brook Schools. Its beautiful artwork some of them are paintings some of them are photographs but it's going to brighten up the whole Municipal Complex and it's basically showing off the talents of our students and they are very talented.

Acting Council President Gierak – New Business?

NEW BUSINESS

There is no new business.

Acting Council President Gierak asks for a motion to open for agenda items only.

Motion: Councilwoman D'Arminio

Second: Councilman Cimiluca

Roll Call:

Councilman Cimiluca – yes

Councilman Gierak – yes

Councilman Accomando – absent

Councilwoman D'Arminio – yes

Council President Mazzer – absent

Jerry Taylor of 318 Schepis Avenue comes forward to speak.

Mr. Taylor – In regards to the marijuana dispensary is it still one on 46 that is coming into us? I know last time you were talking about a location on 46 where they were going to be opening up. One two three do we know?

Mayor White – It's two but neither one has gotten a license from the state yet.

Mr. Taylor – In reference to the license.

Mayor White – They haven't got a license from us I'm sorry all they got from us was a resolution saying it's okay we checked them out their background and they're legit and that we would accept them if they were to get a license and if they were to qualify.

Mr. Taylor – Once they qualify and open up for business is it going to be every year they have to reapply to stay in Town. What I'm asking suppose they open up and all hell breaks loose how do we get rid of them?

Councilman Cimiluca – My understanding is it's a renewal you have to renew your license every year. First of all if there is a problem they probably would have the first issue would come from the state because the state is heavily regulating the cannabis industry in New Jersey. If there is a problem and only because there's so many people that would like to open up they don't want the bad guys the state neither do we but the state definitely doesn't want it. Knowing that there's for every person that opens up there are probably ten people banging at the door saying let me in. They're going to deal with the state first assuming that the state doesn't do anything we still have like anything people come into us and they ask did they have to pass a background check to drive a livery service so if the state's regulating them we also have our regulations. If we see there is a problem there's going to be an issue with getting approval for renewal but it will be on a yearly basis that they'll have to pay a renewal fee to come in and we will be doing our due diligence on whether or not they are being a good neighbor. We have given the resolutions of approval just telling the state that we've checked them out

and they seem to be okay. We don't know we don't know that they are but after that if we find out that they're not being a good neighbor certainly we can do something about it.

Mr. Taylor – In reference to the money being taken in by the Town do we know where it's going to be spent like the kids the seniors or any idea has it been thought about?

Mayor White – I'd be lying to you if I said we've thought that through in advance but we'll welcome the extra money we'll find something good to spend it on.

Mr. Taylor – Oh I'm sure you can send it down to Schepis Ave.

Councilman Cimiluca – I think that what there is, is certain monies they could be in our general revenue but there's a certain percentage we are allowed to designate to certain things. There's a certain percentage of what we get that we can say certain percentage of that percentage goes to youth activities, senior activities, transportation, enforcement our first responders and things of that nature. We can I know that there's one part of the whole income percentages that is supposed to be designated to certain areas and we designate that. We haven't thought that out because when we did this everybody's like oh it's going to be opening up next week. It's a long process and it started at the state it hasn't even come to us.

Mr. Taylor – As far as the dispensary goes they still handle all the security that's all their responsibility.

Mayor White – Yes.

Mr. Taylor – I don't know if you guys have driven down seventeen but one day there was like 900 people waiting to get in over there by the bar and it was just crazy.

Councilman Cimiluca – I liken that to when Sonic opened up on Route 17 everyone in the world was there they had special cops I think a cop got injured people were all over the road and listen at eleven o'clock at night of you want to get a Sonic shake or burger I don't think you're going to have to wait in line too long things kind of even out.

Mr. Taylor – Thank you have a good weekend.

Acting Council President Gieriek – Anyone else wishing to be heard?

Acting Council President Gieriek – Motion to close.

Motion: Councilwoman D'Arminio

Second: Councilman Cimiluca

Roll Call:

Councilman Cimiluca – yes

Councilman Gieriek – yes

Councilman Accomando – absent

Councilwoman D'Arminio – yes

Council President Mazzer – absent

COMMENTS

Councilman Cimiluca – Great Labor Day and since it was in front of my house for a while the St. Joe's feast used to be biggest the 107th St. Joseph's feast in Lodi so everyone come out and have a good time it's always Labor Day Weekend and I missed it before but good job by Ray Abel and the rest of the organizers and volunteers for the St. Philips Summer Festival of fun. the Mayor was there working the games I was away on vacation and could not make it this year but I heard only good things about it. I think the weather was good that week so great job by Ray and the rest of his people.

Councilwoman D'Arminio – Thomas to you I want to say thank you. You've been on this project from the very beginning and all your good work in taking all the pictures and documenting the whole process thank you.

Mayor White – Have a happy Labor Day Weekend and Jerry I got to say you look good with the beard you look a little like Sean Connery it's a good look for you with this upcoming election.

Acting Council President Gieriek – Have a great school year we'll see you on October 6th. Motion to adjourn.

Motion: Councilwoman D'Arminio

Second: Councilman Cimiluca

Roll Call:

Councilman Cimiluca – yes

Councilman Gieriek – yes

Councilman Accomando – absent

Councilwoman D'Arminio – yes

Council President Mazzer – absent

Meeting adjourned at 7:42 PM.

Respectfully submitted,

Peter Lo Dico, R.M.C. CMC
Township Clerk

Florence Mazzer
Council President

Approved: October 6, 2022
